

# PRODUCT ANNOUNCEMENT

## SHARKBITE OXYGEN BARRIER PEX PIPE

The oxygen barrier is an EVOH skin applied to the exterior and limited the oxygen permeation through the tubing wall in hydronic heating applications. This limits the corrosion of metal parts in the heating system. All other properties are the same as standard SharkBite PEX pipe.

- Perfect for closed or open systems
- Use in radiant floor and hydronic heating applications
- Available in 16mm, 20mm & 25mm

CODE	DESCRIPTION
F866H	16mm Oxygen Barrier Pipe x 100mt
F876H	20mm Oxygen Barrier Pipe x 100mt
F886H	25mm Oxygen Barrier Pipe x 100mt
